sunday

today is my last day being 19 and thus
i will shortly be bidding goodbye to my teenager self
somehow. feel like this realization is important
in relation to/in light of recent events
so here are some notes to self; wisdom and stupidity
of a 19-going-on-20 kiddo:

july 2, 2014 8:39 a.m. ~~fruesday~~ wednesday
currently sitting in union station
for one in here early

dear miranda july,
eventhough i do not really know you,
i still feel somewhat close to you
after having read "nobody belongs here
more than you." another little thing is
my name is miranda, too, and i was
born on june 30 - a day shy of july.
anyhow. i thought i would write you
especially after reading that you read
your mail - all of them? - yourself
 whilst sitting on a couch?
