

Please teach me how to start from the naygon
want to be; I want, to treat you like a princess.
I thought I was, but I guess not. So please
teach me.

Also, I want to make even more of an effort
to get along with/ get to know your friends,
if it's not too late to that, if they don't
irrevocably think badly of me.
Weir want to feel like I have an idea for how
to make this happen?

I'm not going to put my career on hold.
and neither are I should you. but I hope we
be able to meet each other in the middle
and be there for each other in every way -
as lovers, colleagues, friends, etc.

I will make a conscious effort to make
room for quality time together.
(can't guarantee quantity though)

I want to be able to go back to when I was
being/earlier in our relationship
and dependent, less of my, less demanding

I like it. still. but again, I'm choosing to
be with you, and I know what that means.
I'm in love with you and I want to see you
you and me through, I would follow you to
the very ends of the earth.
